

Pattern

We can see pattern all around us.

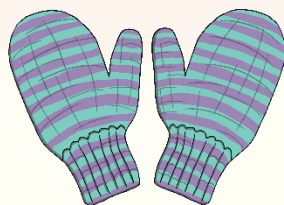

Some animals have pattern in their fur.

Can you guess which animal these patterns belong to?

There are also patterns...

On our clothes.

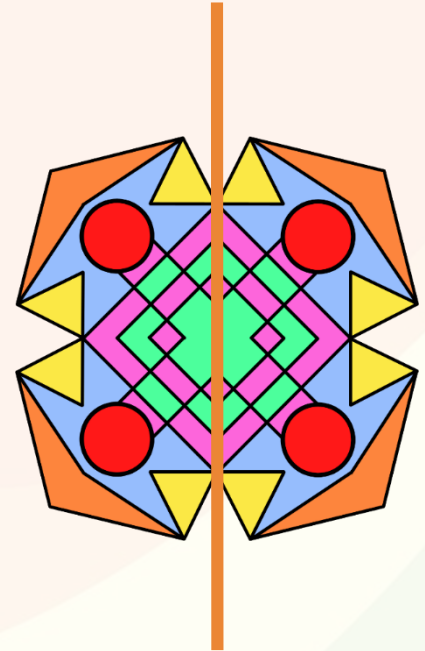

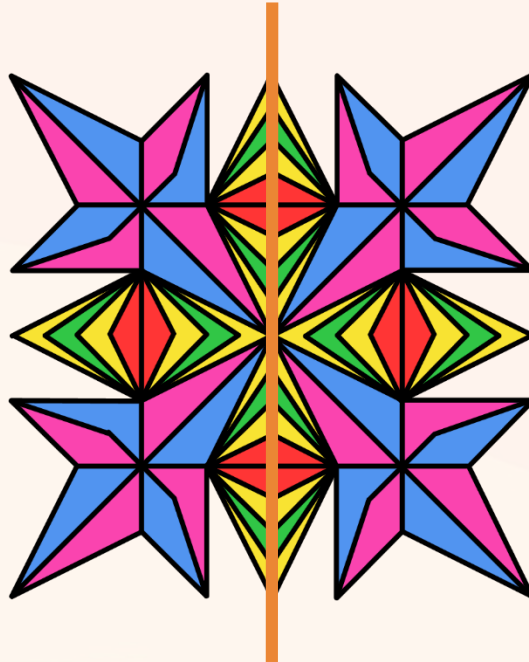

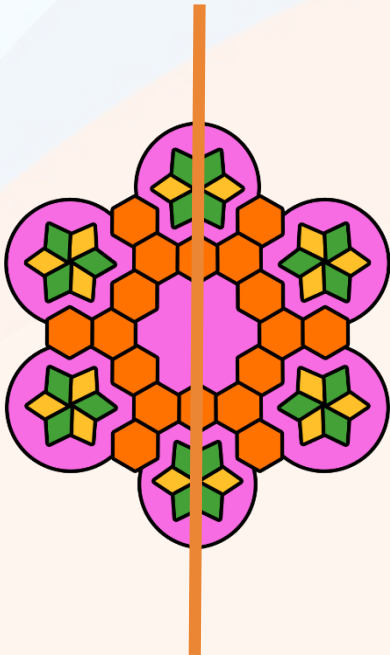

There are also patterns...

In our homes.

Rangoli Patterns

Rangoli Patterns are special because they are **symmetrical** patterns.

If we draw a line down the middle of the pattern, it looks the same on both sides.

Which are patterns?

Which of the squares have patterns inside?
